H [REDACTED],

Here is the histopath from Rabbits 25 and 30. I'm catching up on histo. Next we are sending in histo rabbit 23 and 98.

Rabbit 25, Peter Rabbit, had iron accumulation in his liver. He was euthanized for chronic pododermatitis.

Rabbit 30, Baby Girl, had uterine cancer.

Thanks,  
Leslie

Peter Rabbit, #25 (chronic pododermatitis) and Baby Girl rabbit, #30, (chronic weight loss) were euthanized on 11/16/16.

Thumper, AHR#16132, Rabbit #24, had hair loss but has resolved.

Thanks,  
Leslie
